A true friend never gets in your way unless you happen to be going down...

A friend is someone who gives you
total freedom to be yourself

Truly great friends are hard to find,
difficult to leave, and impossible to forget.

Friend... you help me to smile...

Just like the stars, your friendship never stops shining

Thank you for being my friend

.....The moments.....
I spend with you are too short.

When I am with you, I can be myself

Beautiful things should always be kept
